INVOLVEMENT RECOMMENDATIONS FOR THE YOUTH

1. **Conversion**- True conversion for the youth is essential for consistent, committed active involvement in the life of the church. This can be attained through Personal devotion, Bible study and a systematic prayer life.

2. **Good relationship**- Young people who are enjoying a healthy relationship with church leaders, other youth and the wider membership are more inclined to be involved in the life of the church.

3. **Sacrificial service**- There are some young people who work and study at the same time, or work and study for long hours during the week, so much so that any effort to be involved in church activities must be sacrificial. Make the sacrifice, it is for your salvation.

4. **Creative Involvement-** Seek unconventional activities or projects from school or work that are church related and convenient to your schedules. For example, do a class research or work project on some aspects of your church; Invite other young people of your church to functions at your school or work place if and when possible.

5. **Volunteer –** Share with your church leadership a list of things that you are willing to do based on your ability and convenience.
